An Airbus ACJ319 joins the VIP charter fleet

"When chartering a private aircraft, our clients expect to enter a luxurious environment and to be offered an amazing experience. This is why we are delighted to welcome this Airbus ACJ319 to our fleet," says Abner Tato, Global Jet Marketing & Quality Director. Able to accommodate 18 passengers, this 2011 Airbus ACJ319 features a VVIP spacious and bright cabin. It is divided into different areas allowing passengers to hold business meetings, to enjoy gastronomic meals or just to relax during long-haul flights. This aircraft offers unmatched comfort, space and freedom of movement as it boasts the largest cabin cross-section on the market. The aircraft offers a master bedroom with a queen size bed and an en-suite bathroom featuring a shower. The main cabin can offer 8 single beds when turned in sleeping configuration. In terms of equipment, the jet offers broadband Wi-Fi connection, Ipod stations, touch-screens, fax and printer turning any flight into a proactive journey. It boasts one of the most advanced In-Flight entertainment systems on the market, the entire electronics can be controlled from one of the four Ipads available throughout the cabin. In terms of performance, the aircraft can fly for 10 hours non-stop, covering a range of over 5000 miles, pairing cities such as Bangkok and Moscow or Miami and London.
