

## GLOBAL JET Refurbished Falcon 50EX, joins the fleet

Global Jet has announced the arrival of a Falcon 50EX ProLine 21 to its fleet which has been through a thorough refurbishment program that includes repainting and undertaking a major technical overhaul (2C) in May. It is the only Falcon 50EX in the world to feature ultra-modern equipment and avionics and can accommodate nine passengers. It boasts a spacious and comfortable cabin as well as a complete entertainment system. The state-of-the-art, contemporary brown interior should fulfill passenger's highest expectations.

This aircraft is the most versatile in its category as it will be able to land on special airfields like Saint-Tropez, Bolzano or London City and with an impressive range of around seven hours, 30 minutes, this Falcon 50EX Proline 21 has the capability to perform transatlantic flights.
