Jinggong showcases new Falcon

Jinggong Global Jet, a joint venture between International aviation services company Global Jet and Chinese company Jinggong Group, showcased its first Falcon 2000EX EASy at ABACE last month.

The Falcon jet will be based at Hangzhou International Airport and will offer seating for up to 12 passengers – the first of its type in China. The aircraft's location at Hangzhou will also provide quick and convenient access to destinations such as Hong Kong, Macau, Beijing, Shanghai and Chengdu for the company's client base located there.

The well-appointed Falcon 2000EX EASy has onboard Wi-Fi and a range of six hours so sectors to Japan, Thailand and the Philippines, plus longer regional sectors to Dubai, Saipan and Australia are all possible. — *Benn Marks*
