

## GLOBAL JET

COMFORT WHILE FLYING

# FALCON 7X

[www.globaljetconcept.com](http://www.globaljetconcept.com)

Always working to improve its offer, Geneva-based Global Jet is proud to announce the arrival within its charter fleet of a brand-new 2013 Falcon 7X. This 13-seater jet flies faster, farther and higher than any other Falcon ever built.

Catering and tailored to its customers' needs, the new aircraft is fully equipped and maintains the best standards. It features an HD entertainment system, Satcom, Wifi, touchscreens, Ipod docks, DVD and CD players.

On board, besides, the experience of the passengers will also benefit from a fully equipped galley which includes a Nespresso Lattissima machine, an oven and a microwave.

This brand-new Falcon 7X will be based between Moscow and the French Riviera. The three engines configuration allows this aircraft to fly between Paris and Hong Kong non-stop or to reach Los Angeles from São Paulo in the blink of an eye. Efficiency at its best. While flying long-haul trips, passengers will enjoy the comfort of either

4 single and 1 double beds or 3 single and 2 double beds.

"We are really proud to present this aircraft to our customers", says Abner Tato, Global Jet Marketing & Quality Director. "This product features a BMW interior, which means that a subtle, elegant and sophisticated environment is offered to our clients. The cabin is large and bright and offers uncompromising comfort. This new Falcon 7X sets a new standard for business jets."

Founded in 2000, Global Jet handled the possibility to grow on the international stage, and developed representation offices in Geneva, Paris, Monaco, Luxembourg, Vienna, Moscow and Beijing.

To meet its customers' expectations, Global Jet offers a wide range of activities including Charter Sales, Aircraft Management, Aircraft Sales & Acquisitions, Design & Completion.

With a fleet of 65 aircraft, Global Jet is

claim, with pride, its leading position on the European private jets market.
